TREATMENT PLAN

- #1 Extraction
- #16 Extraction
- #17 Extraction
- #32 Extraction

NOTES & DISCUSSION

Patient reports sensitivity on the lower left when drinking cold.
Some of those are your wisdom teeth.
Advised to floss daily and referred to the hygienist.

DICTATION (verbatim)

Yeah, so I think, you know, tooth number 32, we'll need treatment plus an extraction for sure to number 31 30. We're gonna both need treatment. I think definitely tooth number 14 11 will have cavities. Patient reports sensitivity on the lower left when drinking cold. And I would definitely recommend extracting tooth number one, tooth number 16, and 17, some of those are your wisdom teeth. Advised to floss daily and referred to the hygienist. But aside from those, the rest of your teeth look really healthy.

Teeth: 1, 11, 14, 16, 17, 30, 31, 32

#1 — Extraction

Teeth: 1

#11 — Cavity

Teeth: 11

#14 — Cavity

Teeth: 14

#16 — Extraction

Teeth: 16

#17 — Extraction

Teeth: 17

#30 — Needs Treatment

Teeth: 30

#31 — Needs Treatment

Teeth: 31

#32 — Extraction

Teeth: 32

Treatment Plan

Priority	Tooth	Recommended Treatment	Estimated Timeline
routine	32	Extraction we'll need treatment plus an extraction for sure	—
routine	1	Extraction And I would definitely recommend extracting	—
routine	16	Extraction And I would definitely recommend extracting	—
routine	17	Extraction And I would definitely recommend extracting	—
